

THE GREATNESS OF MINIMALISM

Minimalist design able to cover large gaps allowing maximum luminosity with the minimum aluminum section.

It allows sash dimensions of up to 4 meters wide or high, allowing combinations of up to 6 sashes and meetings at a 90° corner without a mullion.

It has a visible section of just 25 mm and the possibility to inlay totally the bottom, lateral and top frames.

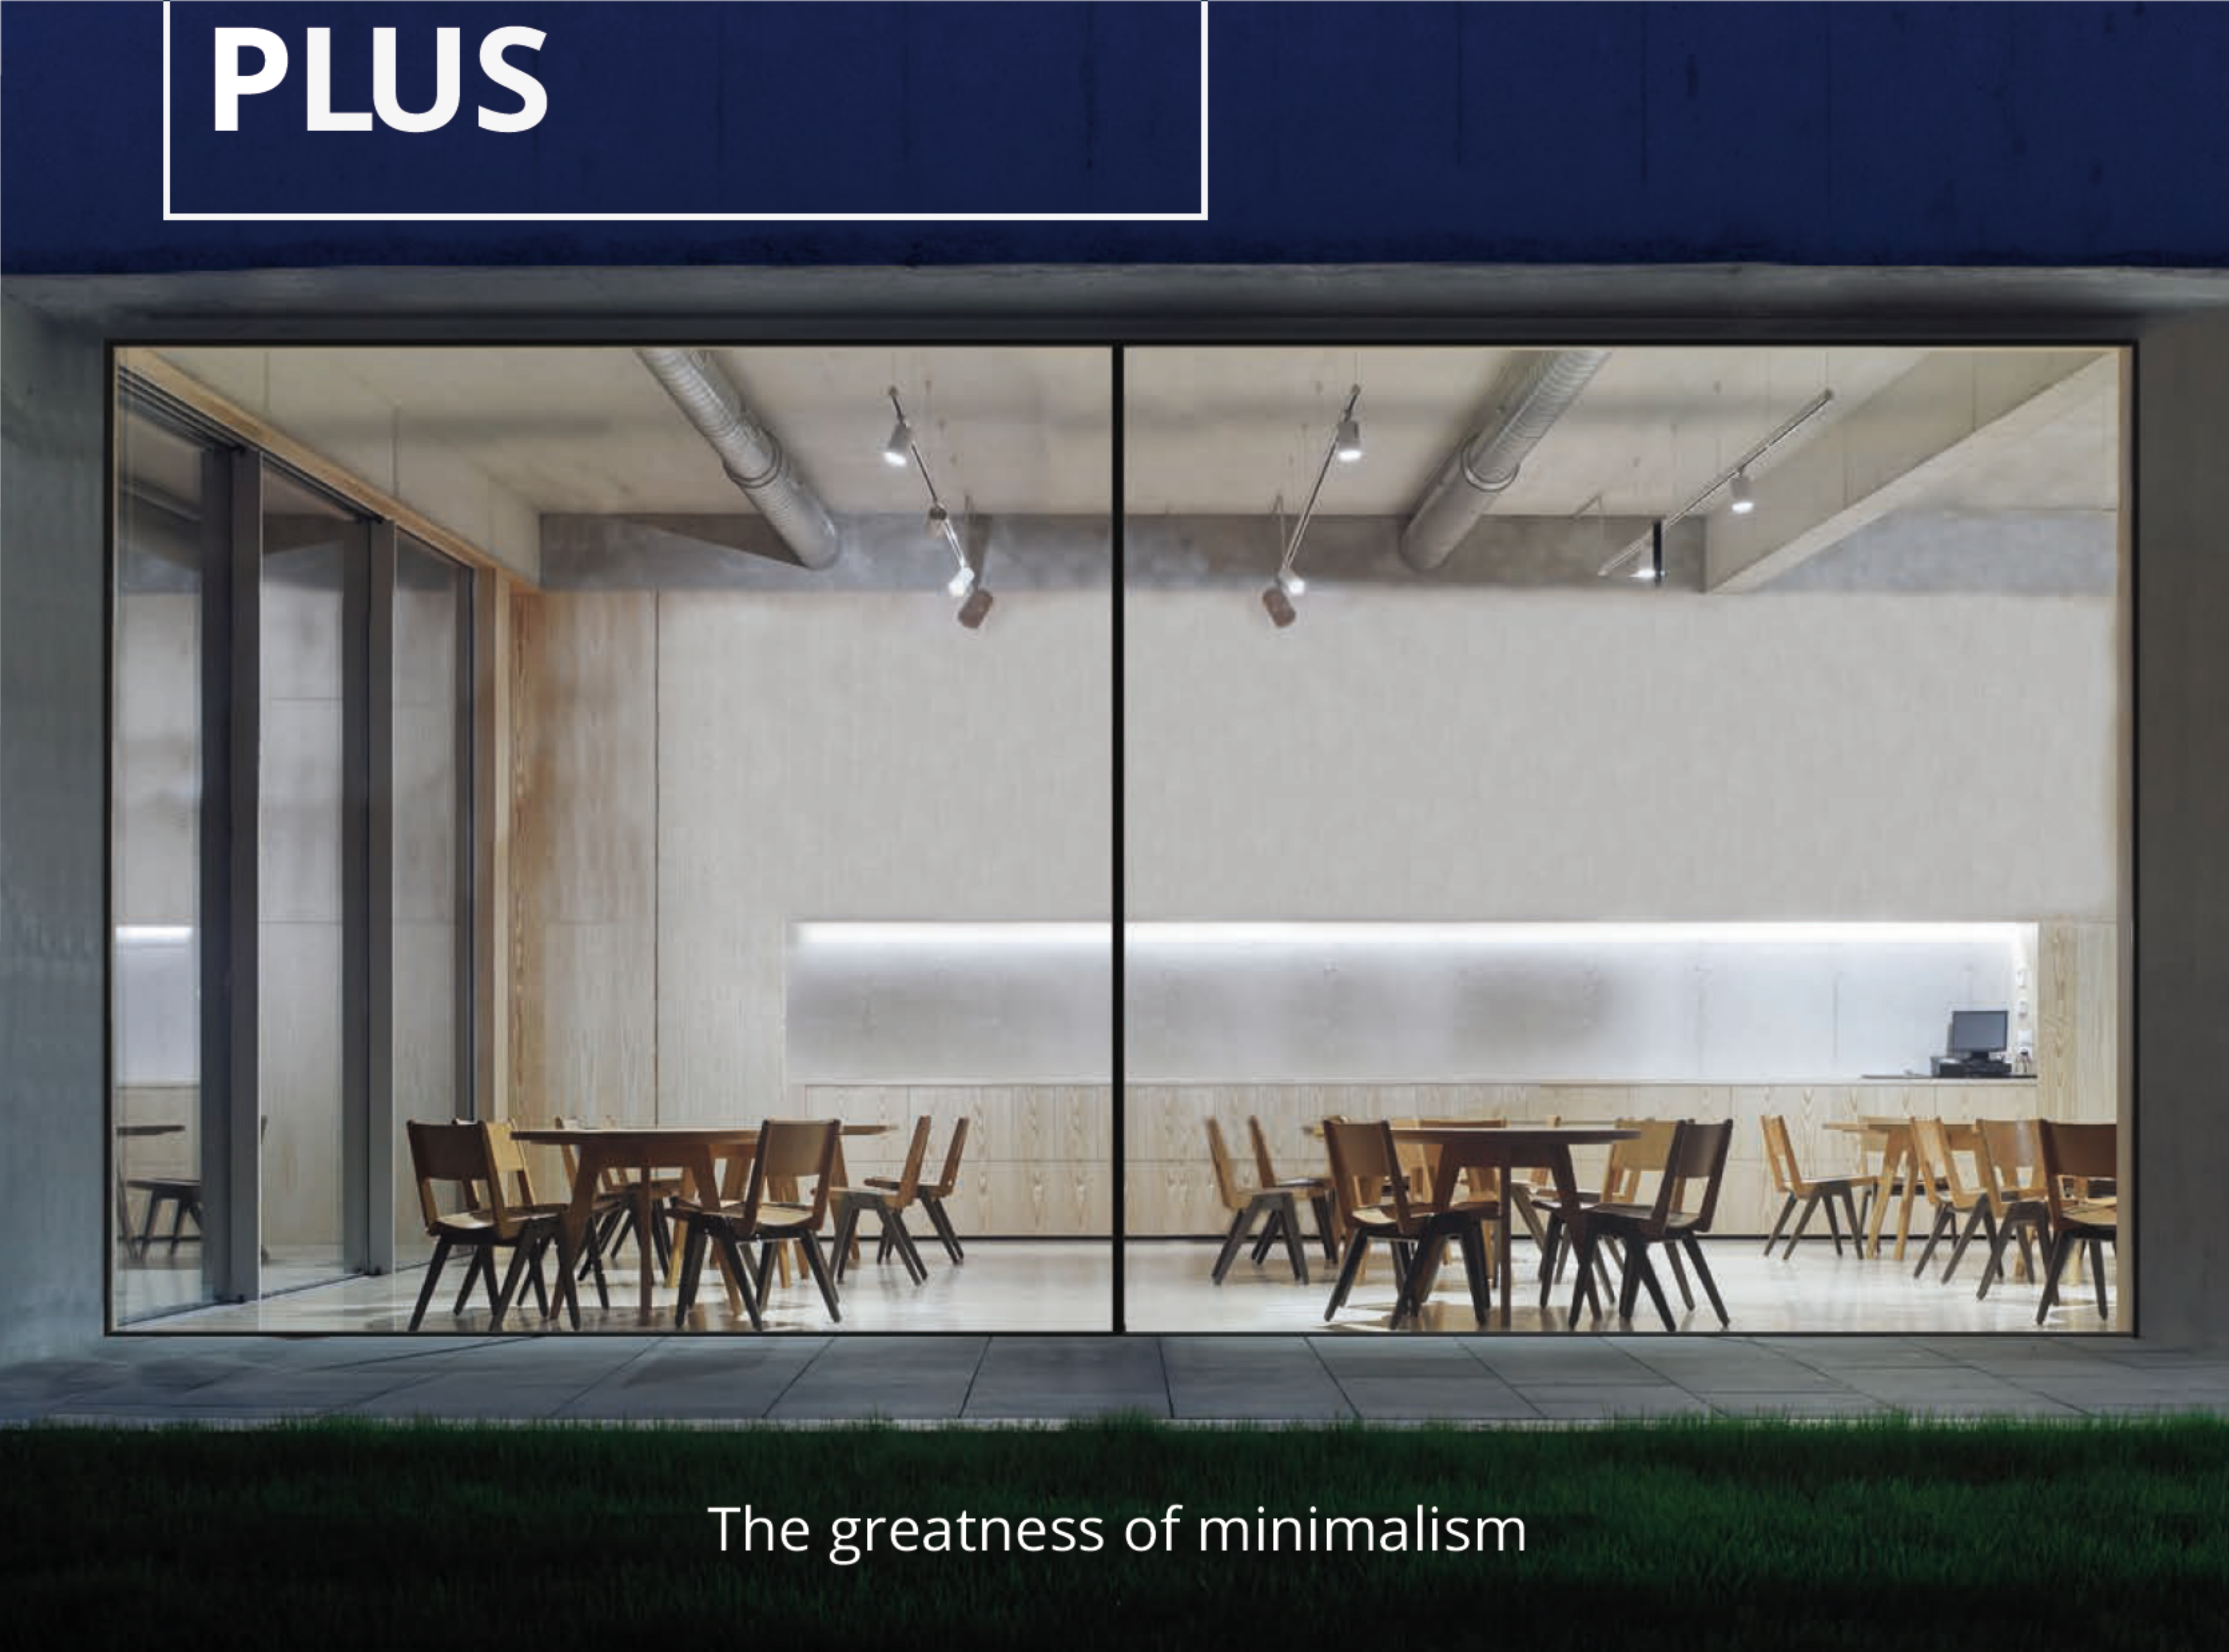

COR VISION PLUS

ATTRACTIVE MINIMALIST DESIGN

OFFICIAL INSTALLERS NETWORK

Cor Vision Plus is a system that stands out for its design and quality. For this reason, CORTIZO restricts its exclusive commercialization to a select group of installers who must fulfill the following requirements:

- Belong to the Cortizo Official Installers Network.
- Have successfully completed the specific training in manufacturing and assembling of this system.

TECHNICAL RESPONSE

It has the possibility of motorized opening carrying weights of up to 700 kg/sash. Manual opening allow to bear up to 400 kg.

The bearings are placed in the frame and the sash has a double reinforced stainless steel rail that gives a great sliding smoothness.

Of multi-point locking systems through operation rod with and without key, increasing the security.

ENERGY EFFICIENCY

Uw from **0.9 W/m²K**

Its high thermal insulation provides comfort indoors and allows a great heating and cooling saving.

ACOUSTIC ISOLATION

Up to **43 dB**

The high acoustic performance of this system allows us to enjoy the silence ensuring the interior quietness and rest.

HIGH PERFORMANCE

The new sliding system with thermal break Cor Vision Plus counts with a glazing capacity of up to 54 mm, which allows reaching an optimal thermal and acoustic performance.
